

HF84380258 [LED Flood Beam 3.25" Grille Light]

Instruction Guide

1. Remove OE light by removing 3 screws holding it in place
 2. Disconnect wiring connector from machine
 3. Place new Hy-Cap light into place and secure with 3 screws
 4. Attach electrical connector to machine connector
- (NOTE: This light includes a jumper harness to adapt to the OE connector on the machine. If at first the light does not power, reverse the jumper connector to resolve.)
